English

- B2 – speaking, writing
- C1 – listening

Personal description

I am a 20 year old student from Romania, mostly doing programming, messing with different aspect of coding and working with efficiency and minimalism in mind.

Education

september 2006 – june 2018

„Ștefan cel Mare” National College – Tîrgu-Neamț, România

Science major high-school, with accent on maths, physics, chemistry and biology. Also learned the basics of C/C++, web development and the use of the Microsoft Office products. The vast majority of programming knowledge was strengthened at home. Been to multiple school-related competitions and won diplomas and performance scholarships. Graduated in 2018 and got a high-school diploma in Computer Science and a B2 english certification.

september 2018 – present

Faculty of Automatic Control and Computer Engineering – Iași, România

„Computers and Information Technology” profile, with other accents on maths and physics (i'm not the best at math though). Learning advanced programming in C/C++, Python, Java, Kotlin, Assembly, Verilog; computers' architecture, servers, reverse engineering, operating systems, different aspects of maths such as differential equations and analytic geometry, quantum physics, etc. – until now, 2 more years to go.

Additional activities

13 march 2017 – 16 april 2017

Erasmus+ Exchange Programme
Nottingham, UK

The selection stage consisted of an English and a logic test, and while being abroad for more than a month we visited Nottingham and London, learned from a teacher how to use the Joomla platform, write scripts with PHP and JS, and enhance our teamwork skills by creating projects together. The final project was to build a customized webpage for an organisation or company of our choice.
